Executive Summary

January 2010 has been a profitable month and the company has shown growth in many arenas. Ad sales are up by 23% and capital expenditures have decreased since 4th quarter in the Sales Department. The sales team hired a new design specialist, the role of VP of sales was filled, a new sales chief position was created, and the sales team accrued 14 new clients, including one national chain. Additionally, online ad sales doubled since July of last year. Statistics indicate that sales in most markets increase with the use of online ads and our clients are reading those statistics and responding to them. Marketing trends indicate that this growth will continue.

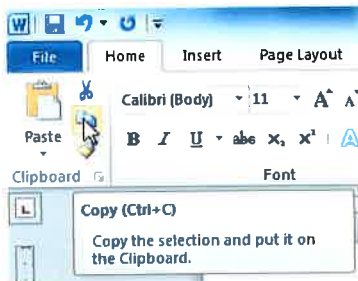

When you select text or images in Word, a **hover toolbar** with formatting options appears. This makes formatting commands easily accessible, which can save you time. If the toolbar does not appear at first, try moving the mouse over the selection.

3. Release the mouse button, and the text will appear.

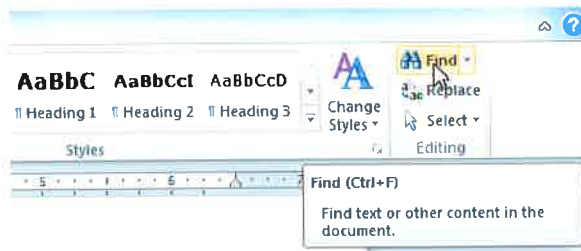

If text **does not appear** in the exact location you wish, you can click the **Enter** key on your keyboard to move the text to a new line.

Find and replace text

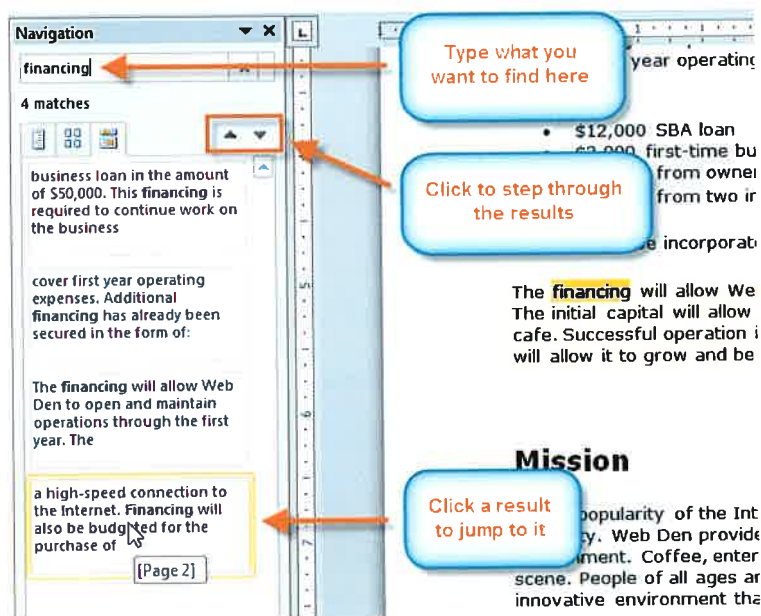

When you're working with longer documents, it can be difficult and time consuming to locate a specific word or phrase. Word can automatically search your document using the **Find** feature, and it even allows you to change words or phrases using **Replace**.

To find text:

1. From the **Home** tab, click the **Find** command. The **Navigation** pane will appear on the left side of the screen.

2. Type the text you wish to find in the field at the top of the Navigation pane.
3. If the text is found in the document, it will be highlighted in yellow, and a preview will appear in the Navigation pane.
4. If the text appears more than once, you can click the **arrows** on the Navigation pane to step through the results. You can also click the **result previews** on the Navigation pane to jump to the location of a result in your document.

5. When you close the Navigation pane, the highlighting will disappear.

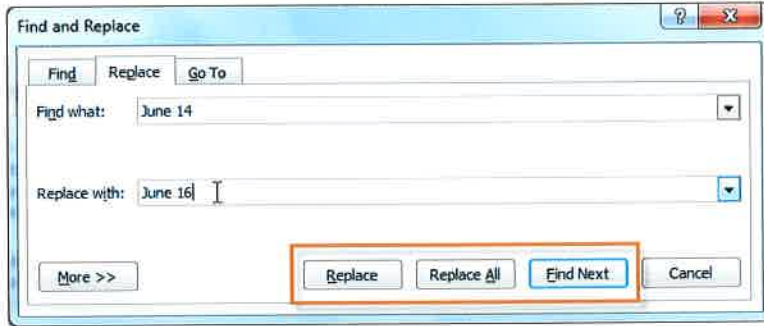

To replace text:

1. From the **Home** tab, click the **Replace** command. The **Find and Replace** dialog box will appear.

2. Type the text you wish to find in the **Find what** field.
3. Type the text you wish to replace it with in the **Replace with** field.

4. Click **Find Next** and then **Replace** to replace text. You can also click **Replace All** to replace all instances within the document.
